

## **S15AB**

### **Lightest and Thinnest Semi-Rugged Laptop PC**

- Product: S15AB
- Application: Government

The Government Officials of Train Authority needed a mobile system laptop PC for daily operation; they need the latest CPU, the largest display and fast connectivity for better performance. Moreover, it shall be durable and light.

“So we adopted S15AB from DURABOOK, It’s incredibly thin and light for a semi-rugged laptop. And it has all the connectivity and IOs you need” Said one officer. “The best thing is you can pick it up anytime and go anywhere without fear of breaking it out there.”

S15AB is built with 4G LTE, GPS and a bright 15.6” Full HD display while meeting MIL-STD 810G and IP5X standards. It comes in at an industry leading weight of 2.8Kg without sacrificing the comfort of viewing. S15AB is truly the ideal laptop PC for those who must split working time between offices and outdoors.

DURABOOK has been working with Government Officials around the world. We provide the best product quality and perfect after - sales service. We stand by our products and our customers.

**DURABOOK. Anytime Mission Calls.**
